

Austria 220v outdoor power supply

What type of plugs does Austria use?

Austria uses power outlets and plugs of types C & F. Take a look at the pictures below to see what these plugs and power sockets look like: Doesn't look familiar? Do the outlets look different in your country? You'll need a power plug adapter. Type C - The standard European plug.

Do I need a travel adapter for Austria power outlet?

It is important to determine if you need a travel adapter or a voltage converter for Austria plug and power outlets. Not to worry, we have all the information you need to ensure a problem-free trip. What type of plug is used in Austria power outlet? The plug and power outlets used in Austria are the type C and type F plugs and sockets.

What is the voltage in Austria?

Just like the rest of Europe, the voltage in Austria is 230 volts and the frequency is 50 Hz. Austria has standardized on type F sockets and plugs. Type C and type E plugs can also be used thanks to their compatibility with type F sockets.

What is the standard voltage of a power socket in Austria?

All power sockets in Austria provide a standard voltage of 230V with a standard frequency of 50Hz. You can use all your equipment in Austria if the outlet voltage in your own country is between 220V-240V. This is the case in most of Europe, Australia, the United Kingdom and most countries in Africa and Asia.

Which plug sockets can be used in Austria?

Type C and type E plugs can also be used thanks to their compatibility with type F sockets. Typically, type C plug sockets are not allowed to be installed in Austria: these outlets are not earthed and are therefore considered dangerous. Only type F power points are permitted because they are grounded and therefore significantly safer.

Do I need an adapter to use UK plugs in Austria?

Visitors from the UK need an adapter to fit a 3-pin British plug to an Austrian socket.

If you're travelling to Vienna, Austria, from the US, you will need to bring a power adapter to fit a US plug into an Austrian power outlet. This is because Austria uses 2-pin ...

Korea primarily uses 220-volt power systems. Many modern buildings also offer 110-volt outlets, making it convenient for international travelers. Outdoor charging systems are safe to use as well. The plug types are compatible with those used in the EU and US, so your devices may fit directly or require minimal adaptation.

Primary switched-mode power supplies. The CP range offers the latest technology in a more compact package.
