How does a Black & Decker 200W inverter work?

Black & Decker 200-Watt Inverter takes 12VDC power from your car battery and converts it into 115V AC power. Using the 115V output, you can run several electronic devices. Additionally, the Black & Decker 200W inverter is built with good protective features. As a result, it is highly protective against high voltage, low voltage, short circuits.

What is the peak output power of the inverter?

5. 2000W is the peak output power of this inverter. The continuous output /rated output power is about 45%~60% of the peak power. Check key parameters such as input/output voltage, current, and frequency to ensure the inverter's functions meet design specifications. Ensure no harmful electromagnetic interference and resist external interference.

Is Black & Decker inverter pure sine wave or modified sine wave?

The inverter is protective to common electronic issues such as low-voltage, high-voltage, short circuits etc. Additionally, the Black & Decker inverter comes in a special design, which has foldable sockets. Thus, this feature seems very convenient. Q: is this a pure sine wave or modified sine wave inverter? A: this is a modified sine wave inverter.
