In the Cameroonian context, several studies have been carried out both on the solar potential [13] and on the design and sizing of solar power plants, either autonomous or connected to the national grid [14]. Other studies in the same context are made with the aim of using solar PV as an energy source for the production of either electricity, hydrogen [15], or even medical ...

Here in Cameroon, I was surprised to find that the lithium batteries are within a reasonable price range as compared to the other common batteries in the market: Gel. If one compares the cost vs the expected life span as well as the usable capacity (DoD), the lithiums come out on top in both longevity and cost over time, cost per cycle, etc.
