Who is Shinson solar?

About Us Founded in 2010,Shinson is one of the most innovative and reliable solar products manufacturers in the world. Shinson distributes its solar products,solutions,and services for a variety of utility,commercial,and residential applications worldwide with an organized annual capacity of 10 GW.

What is a hybrid solar air conditioner?

Hybrid solar air conditioners still require energy from the grid, whereas off-grid solar air conditioners are entirely powered by solar energy. Solar air conditioners are energy-efficient, cost-effective, and eco-friendly, making them a popular choice among those who want to reduce their carbon footprint and energy bills.

Are solar air conditioners a good choice?

Solar air conditioners are usually quieter than conventional air conditioners, making them an ideal solution for residential areas. In simple terms, solar ACs use solar panels to power the air conditioning system. Solar panels collect energy from the sun. They convert this energy into power.

Where is solar appliances made?

Located in Zhejiang province for manufacturing base ,and branches in Chongqing and other cities all over the world,with more than 10 years experience on solar appliances field,our business is increasing year by year, and we moved new office building in Jan, 2019,with production capacity double than before.

What types of solar air conditioners are available?

ACDC On grid solar air conditioner with wall split type, cassette type, floor ceiling type, duct type, multi-split type and T3 type. High efficiency up to SEER36, high quality with 3-5 years warranty, convenient installation, wide voltage design, free combination of solar panels. All climate condition available.
