

Croatia lighting solar lamp manufacturer

When did LED street lights start in Croatia?

Schröder launched its first LED lighting system in Croatia in 2007. At the time, LED technology was still in its infancy, yet to be proven as a reliable alternative to fluorescent bulbs. To everyone's surprise, the LED street lights in Croatia saw a massive positive response from the locals and the government.

Project accomplished: 2018 Local partner: Savenergy Light Solutions Revolutionising new and retrofit street lighting projects, our groundbreaking innovation HEI Libertas solar energy tubes are recognised as category winner of Parking, Roadway and Area Luminaires.

Which lighting application is best for solar conversion?

However, one lighting application that is ideal for solar conversion is street lighting. Street lights require only a modest amount of electricity and are installed in open areas with plenty of direct sunlight. Thus, a typical street light can gather more than enough energy during the day for its nighttime operation.
