

Customized energy storage power supply in Cote d'Ivoire

Will a lithium-ion battery energy storage system be installed in Cote d'Ivoire?

A lithium-ion battery energy storage system (BESS) made by Saft will be installed at a 37.5MWp solar PV power plant in Cote d'Ivoire (Ivory Coast). It is the African country's first-ever large-scale solar project and the batteries will be used to smooth and integrate the variable output of the PV modules for export to the local electricity grid.

Why should Cote d'Ivoire invest in a solar power plant?

The solar power plant is regarded as a model project for the expansion of solar energy in Cote d'Ivoire. It is an important contribution to the fight against climate change and a decisive step towards increasing the share of renewable energies in the country's electricity supply to 45% by 2030.

Where is the first solar power plant in Cote d'Ivoire?

In Boundiali in the north of Cote d'Ivoire, the country's first solar power plant has now been inaugurated by Ivorian Prime Minister Beugre and German Parliamentary State Secretary Babel Kofler. The power plant has already been providing up to 37 megawatts of power since June 2023.

Why did KfW build a solar power plant in Cote d'Ivoire?

"We also endeavoured to create employment for the local population," emphasises KfW Project Manager Clara Winkler-Tomety. During the construction phase, 75% of the workers came from the region. The new solar power plant in Cote d'Ivoire is helping to achieve the goals of German development cooperation in the expansion of renewable energies.

How much money does Cote d'Ivoire get from KfW Development Bank?

KfW Development Bank is financing the project with EUR 37 million, including a loan of EUR 27 million on behalf of the German Federal Government and a grant of EUR 10 million on behalf of the European Union. Cote d'Ivoire is contributing five million euros from its own budget.

Cote d'Ivoire plans to produce 20% of sustainable energy in its energy mix by 2030. It also wants to reduce the share of fossil fuels to 66% and increase the share of renewable ...

Vision intelligent lithium storage platform As a professional manufacturer of battery energy storage systems, Vision energy storage product business includes Base station energy storage, UPS uninterruptible power supply, IDC data ...

The first large-scale solar power plant to be built in Cote d'Ivoire will integrate a 10MW energy storage system for smooth grid integration. The 37.5MWp Boundiali solar photovoltaic PV power plant will be owned

Customized energy storage power supply in Cote d'Ivoire

and ...

Soft Energy Storage System will Smooth Grid Integration for Côte d'Ivoire ... The fully-integrated lithium-ion ESS will comprise six Saft Intensium Max High Energy containers, providing a total of 13.8 MWh (megawatt-hour) energy storage, together ...
