

Entry requirements for outdoor power supply in Kathmandu

Do I need a power adapter in Nepal?

The standard voltage in Nepal is 230V, and the frequency is 50Hz. Devices from countries with different voltage standards, like the United States (120V), may require a voltage converter in addition to a plug adapter. Do You Need a Power Adapter in Nepal? Whether you'll need a power adapter depends on the type of plug your devices use.

What type of electrical outlet does Nepal use?

Nepal primarily uses Type C, Type D, and Type M electrical outlets. These types are common in various parts of Asia and Europe. Also known as the standard "Euro" plug, Type C outlets have two round pins. Has three round pins in a triangular pattern, used in India and some African countries. Looks like Type D, but with larger pins.

What are the rules relating to electricity development in Nepal?

These Rules to be Applied:- (1) Except the provisions relating to license all other provisions of these Rules shall be applicable to production or development of electricity developed pursuant to Section 34 of the Act by Government of Nepal by itself.

How many plug types are there in Nepal?

There are three plug kinds that are related to Nepal: types C, D, and M. Plug type C is a plug with two round pins, plug type D is a plug with three round pins arranged in a triangle, and plug type M is a plug with three round pins. Nepal uses 230V and 50Hz for its operating voltage.

Do you need a travel plug adapter in Nepal?

To solve this issue, a travel plug adapter comes in handy. Plug adapter has holes for pins made in them that fit your electronic device and when connected to the power socket, even the flat prongs devices can be used. Since Nepal differs in both voltage and shape standards from most countries, you need both a voltage converter and a plug adapter.

Why do you need a voltage converter before travelling to Nepal?

For this reason, before travelling to Nepal, make sure to take a voltage converter that will keep the voltage in check according to your electrical devices. Another important point is that all the Plug types in Nepal are made to fit the round pins hence, the flat prongs can not be fitted in them.
