

# Fiji Outdoor Power Supply Specifications

What type of power outlet does Fiji use?

See our product selection criteria and guidelines here. Which power outlets do they use in Fiji? Fijian plugs and sockets are a Type I; The standard voltage is 240 V and the standard frequency is 50 Hz.

What type of power plugs and sockets are in Fiji?

The power plugs and sockets in Fiji are of Type I. This is a three-pronged plug with one vertical prong and two slanting prongs. Some electrical appliances plugging into a Type I sock only have two slanting prongs. The Type I (i) power plug/socket is the type of power plus found in the following locations:

What is the supply voltage in Fiji?

The supply voltage in Fiji is 240V with a frequency of 50 Hz. For most of your personal electronics, including mobile phones, laptops, tablets, and cameras - you will not need a converter because they are almost always dual voltage (typically 100-240V).

Do I need a power adapter in Fiji?

If you are from the U.S., you will need a power adapter for sockets of Type I. Americans use Type A and type B, neither of which are compatible with a socket I. We recommend this Universal Adapter that will have you covered in Fiji, in addition to 100+ other countries around the world.

Are US power adapters compatible with Fijian sockets?

U.S. power adapters are not compatible with Fijian sockets so you must consider the standard voltage, frequency compatibility, and if a converter is worth considering. Learn ways to protect your devices, what to pack for Fiji, and how to save money while doing it! See our product selection criteria and guidelines here.

Where does Fiji's Electricity come from?

Fiji's electricity supply primarily comes from a mix of hydroelectric power stations and diesel generators. The country is actively working towards increasing its reliance on renewable energy sources like solar and wind power.
