MG containerized type gensets use advanced sound-absorbing materials, scientific and unique design in airflow and noise control. The container is with CSC certification, in line with international container security convention, ensures shipping directly as a standard container, and greatly saves the cost of transportation.

Noise Reduction Features: Many container generators are equipped with sound-attenuating features within the container to reduce noise pollution, making them suitable for use in noise-sensitive areas. Security and Safety: The container provides a secure housing for the generator, protecting it from theft, vandalism, and unauthorized access.
