

Hungarian home energy storage trading company

Who will build Hungary's largest energy storage facility in Szolnok?

Forest Vill Ltd. will build Hungary's largest energy storage facility in Szolnok on behalf of MAVIR Ltd. The Budapest-based company will design and fully implement a 20 megawatt energy storage facility with a capacity of 60 megawatt-hours as part of the HUF 8.5 billion project.

When did forest-vill start construction of Hungary's largest electricity storage system?

At the end of 2023, Forest-Vill Ltd. won the public tender of MAVIR Ltd. for the design and full construction of Hungary's largest electricity storage system in Szolnok. After the contract was signed in February 2024, the company started the preparation phase of the works.

Which country has the largest battery storage facility in Central Europe?

The country's largest such facility is currently located in Székesfehérvár with a capacity of 7,68 MW. The new storage facility, for which Huawei will provide the equipment, will be eight times larger and will be one of the largest battery energy storage facilities in Central Europe.

How long does it take to build a Hungarian power plant?

The project will take 15 months to complete, with a delivery to be expected in the first half of 2025. The development is an important milestone not only for the company, but also for the entire Hungarian energy sector. The country's largest such facility is currently located in Székesfehérvár with a capacity of 7,68 MW.

What is Sinergy Kft?

Sinergy KFT will now participate in the electricity market by providing frequency and secondary regulation to the national grid operating in virtual power plant mode. Ancillary services are a proven application provided by the GEMS Digital Energy Platform. This will help generate revenue for ALTEO.

What are Wärtsilä; energy storage solutions?

Wärtsilä; energy storage solutions enable power companies and developers to integrate and optimise a diverse mix of grid resources and deliver flexibility, reliability and resilience for customers seeking best-in-class system performance.
