We have been manufacturing Power Products and Tactical Enclosures in support of the United States Government and Industrial/Commercial customers. Our manufactured power quality products include Frequency Converters, Uninterruptible ...

One common example of a power supply is the electrical adaptation needed to power computers. Interestingly, this application often leads to more terminological confusion. A power supply unit (PSU) converts alternating current to direct current for a desktop computer, whereas a power brick is a specific type of standalone converter used for laptops.
