

Kosovo energy storage power supply retail price

What is Kosovo's Electricity Supply Chain?

Kosovo's electricity supply chain (ESC) includes both public and private firms. Electricity production is dominated by a publicly owned enterprise (POE), Kosovo Energy Corporation (KEK), Sources: Kosovo authorities and IMF staff calculations. Note: KOS A and KOS B refer to state-owned coal-based generation plants ("Kosova A and B").

Does Kosovo have enough electricity?

Kosovo is currently unable to generate enough electricity domestically to fully meet demand for energy. Electricity consumption and peak demand in Kosovo grew more than 90 percent between 2000 and 2010, stabilized from 2011 to 2018, but increased by another 20 percent from 2018 to 2021.

Why are energy prices so high in Kosovo?

Higher energy prices represent a heavy blow for Kosovo's current account. Despite having the 5th largest global reserves of lignite coal, lignite's low-energy content and Kosovo's inadequate infrastructure have prevented exports at a meaningful scale, along with actions by other countries to reduce carbon emissions and move away from coal use.

Who owns electricity distribution services in Kosovo?

Electricity Distribution Services in Kosovo (KEDS, a privately-owned firm) oversees distribution. The same firm owns KESCO (Kosovo Electricity Supply Hours Sources: Kosovo authorities and IMF staff calculations. 5. More than 20 percent of Kosovo's electricity consumption is either not billed or billed but not collected.
