Rekoser manufactures pure sine wave inverters for solar applications: off-grid, on-grid and hybrid 1 phase and 3 phase. More . Controllers. Rekoser manufactures MPPT and PWM solar charge controllers for all your solar applications. More . Panels.

What Is a Hybrid Solar System? As the name suggests, a hybrid solar system is a solar system that combines the best characteristics from both grid-tie and off-grid solar systems. In other words, a hybrid solar system generates power in the same way as a common grid-tie solar system but uses special hybrid inverters and batteries to store energy for later use. For ...

What is a Microinverter? A Microinverter or a Solar micro-inverter is an extremely small device used to convert DC to AC. These inverters are so small that they are used as plug-and-play. Microinverters work remotely with every panel. This is advantageous in case of panel failure or power surge. These inverters work on every power output from the panels and if ...
