

Libya electric tool lithium battery

Lithium battery is the major component in electric power tools. It is greener and lighter with larger capacities for storage and cycle life for the battery, and higher efficiency compared to nickel-hydrogen or nickel-cadmium batteries, and therefore, can better serve the developing cordless technology, the future trend of power tools industry.

1. Ordinary lithium-ion battery for power tool battery. If the power tool battery is made of ordinary lithium-ion battery, it must meet the high-rate discharge performance to meet the working requirements of the power tool. However, ordinary lithium-ion batteries cannot achieve higher rate discharge performance due to cost and material limitations.
