

Nassau Tool Lithium Battery

Why are Nassau County officials fighting lithium-ion battery storage on Long Island?

Top officials across Nassau County are coming together in opposition to lithium-ion battery storage facilities on Long Island. The main concern is unpredictable and uncontrollable fires that firefighters in the county are just not trained to deal with.

How many lithium-ion batteries have been burned in Long Island?

While statistics for Long Island were not immediately available, recent studies have found the FDNY and fire departments in San Francisco have responded to more than 660 fires involving lithium-ion batteries since 2019. In 2023, the FDNY reported 18 deaths and 150 injuries from 268 fires involving lithium-ion batteries.

Did a lithium-ion battery power tool ignite a fire?

Hickman said a preliminary investigation found a lithium-ion battery power tool ignited, causing the fire. Hickman said investigators believe the tool was "left out in the rain" -- and the battery became damaged and ignited. The investigation is ongoing, he said.
