

Nauru Outdoor Power Supply Trading Center

Does Nauru have an electricity supply?

Nauru previously relied on diesel-powered generators maintained by the Nauru Phosphate Corporation for its electricity supply. After the dismantling of the Nauru Phosphate Corporation and government restructuring, the government-run Nauru Utilities Authority now manages the power supply.

Does Nauru have an energy road map?

Currently Nauru is working on an Energy Road Map, including action plans for the development of renewable energy and energy efficiency sufficient to significantly lower imports of diesel fuel for electricity generation.

Where does Nauru's electricity come from?

Nauru's electricity supply comes from a single power station operated by NUC. Most of the power now comes from four ageing medium-speed Ruston stationary engines with a high-speed Cummins generator providing essential supplementary capacity. There are plans to repair and install two more generators which are already in Nauru but not in use.

What services does Nauru utilities provide?

Nauru Utilities Corporation provides power, water, and sanitation services at a fair price, with tariffs and fees tailored to suit every budget. Their competitive and reliable services ensure your home or business has access to the highest standard of power, water, and sanitation. Hire their experienced team to take care of all your power and sanitation needs!

Does the NUC provide electricity to Nauru?

The NUC currently provides all electricity services to Nauru except for the RPC and the main processing plant of RONPHOS which both generate their own power. Diesel, petrol and jet fuel are purchased by the government for all customers except RONPHOS who do their own purchasing.

What is Nauru Utilities Corporation?

Nauru Utilities Corporation is a Utility Supplier that provides Electricity and Water to the people of Nauru.
