

# New energy storage project in Bucharest

Does Romania have a battery energy storage plan?

In its first, the Romanian government has allocated EU funds for two major battery energy storage projects via its National Recovery and Resilience Plan. A utility-scale solar-plus-storage site in the country's northwest has flipped the switch.

What is Enery doing in Romania?

This week, Vienna-based Enery has commissioned a major solar and storage site in northwestern Romania. The project consists of a 51.4 MW PV plant and a battery energy storage facility of 22 MWh.

What is Romania's most important energy project?

Earlier this month, Burduja reported progress on what he terms as "the most important project for the Romanian energy system" - the 1 GW Tarnita-Lapustesti pumped storage hydropower plant. Romania resumed the development of the project last year, upping the planned capacity from 500 MW to 1 GW.

How will Romania grow its energy storage fleet?

Romania aims to exponentially grow its energy storage fleet over the next couple of years, as it works on its plan to deliver 36% of the nation's energy to come from renewables by 2030, with 8.3 GW of solar and 7.6 GW of wind, and phase out coal by 2032.

How much is a self-consumption solar and storage project worth?

Minister of Energy Sebastian Burduja signing 24 financing contracts for self-consumption solar and storage projects, worth nearly EUR14 million. Image: Ministry of Energy. A 204MW battery energy storage system (BESS) project in Romania can progress after the government said it did not need to go through an environmental impact assessment (EIA).

What is Romania's energy storage requirement?

Minister of Energy Sebastian Burduja reportedly declared at a conference that Romania's storage requirement is 4,000MWh, and that half would be covered by BESS and half by pumped hydro energy storage (PHES) technology.

The project attempts to assess the current technical potential, regulatory framework, and estimated investment needs for commercially mature energy storage facilities in Romania, while also analysing the potential of different storage technologies, considering the domestic context.

**IMPORTANT UPDATE !** We've changed the venue! On Thursday, September 26 2024, at Ramada by Wyndham Bucharest Parc, Energynomics organizes a meeting dedicated to battery energy storage solutions, where we will expose the trends and challenges facing the Romanian renewable energy industry and promote relevant discussions in order to chart a ...

# New energy storage project in Bucharest

Battery Energy Storage Systems (short from BESS) will become more and more important in the coming years, especially in the context of massive new investments in renewable energy ...

The Ministry of Energy will allocate another 150 million euros for electricity storage batteries, as shown by a call for projects launched in public consultation.

Additionally, as part of the call for projects within Romania's National Recovery and Resilience Plan (PNRR), OMV Petrom has submitted a project to build a Battery Energy Storage System with a ...

Romania's Ministry of Energy announced it cleared the disbursement of grants under the Resilience Facility in the total amount of nearly EUR 36 million for five power storage projects with a ...

Simtel (BVB: SMTL), an engineering and technology group listed on the Main Market of the Bucharest Stock Exchange and the national leader in renewable energy, and Monsson, the largest renewable energy project developer in Romania and Southeast Europe, announce the signing of a strategic partnership aimed at developing, constructing, and selling ...

Monsson Group, controlled by the Romanian-Swedish businessman Emanuel Muntmark, announced plans to invest in power storage capacities of around 1,500MWh by 2030. The total investments are ...

The loan facility is strategically allocated to refinancing the entire Romanian renewable energy portfolio, providing financial stability and operational efficiency, constructing a new 64.5 MW PV project and co-locating battery energy storage systems (BESS) in all operational and greenfield power plants to enhance grid stability and storage ...

Subscribe to Newsletter Energy-Storage.news meets the Long Duration Energy Storage Council Editor Andy Colthorpe speaks with Long Duration Energy Storage Council director of markets and technology Gabriel Murtagh. News April 17, 2025 News April 17, 2025 News April 17, 2025 Premium Features, Analysis, Interviews April 17, 2025 News April 17, ...

Search all the latest and upcoming battery energy storage system (BESS) projects, bids, RFPs, ICBs, tenders, government contracts, and awards in Romania with our comprehensive online database. ... Find the Latest Battery Energy Storage System (BESS) Projects in Romania with Ease. ... with new projects and tenders being added and updated in a ...

Romania aims at a 30.7% share of renewable energy in gross final energy consumption in 2030, which is estimated to require 6.9 GW of renewable energy capacity to be added on top of the 2015 figure. One of the methods of achieving this target is through the development of a Contracts for Difference (CfD) mechanism.

Romanian utility Societatea Energetica Electrica received EUR 3.4 million in state aid for a 69.9 MWh battery

# New energy storage project in Bucharest

storage project, with the funding envisaged to cover also the construction of transformers and accompanying ...

The Romanian company Prime is one of the leading producers of energy storage solutions in the European Union. The company was founded in 2016 and is based in Bucharest. With over 37 years of cumulative experience ...

These investments will add at least 2,500 MW of new capacity to Romania's national energy system, with at least 600 MW coming from baseload production. This will play a crucial role in enhancing Romania's energy security. ... Poland opens funding for energy storage projects. Poland's National Fund for Environmental Protection and Water ...

Polish solar developer and independent power producer (IPP) R.Power SA has obtained EUR 15 million (USD 15.5m) in grant financing from the Romanian government for a new energy storage project in the Balkan country.

The Ministry of Energy announces the launch of the call for projects "Supporting investments in the development of electrical energy storage capacities (batteries)" with funding ...

Meanwhile, the remaining EUR49.75 million is intended for new projects in Romania that would add solar PV cell and module (panel) production, assembly and recycling capacity to the tune of at least 200MW per year by ...

The Minister of Energy signed, on October 17, two financing contracts through Investment 4.3 and a contract through Investment 4.2 from the National Recovery and ...

The most significant industrial investment brought by the energy transition for Romania is moving to the next level with chances to reach 1 billion euros: the region can become a hub for ...

Romanian power distributor Premier Energy PLC ( BSE:PE ) has wrapped up the acquisition of a majority stake in a company that holds the rights to a 49-MWdc solar project with battery storage in Buzau County, southeastern Romania.

Electric Spot is looking to build the 204MW project just outside the village of Rosiori, in the Valea Vinului commune in Satu Mare county, and connect it to the electricity grid. The ANPM said it did not need an EIA as it ...

Prime Batteries and Monsson have launched Romania's largest electric energy storage facility.

Energy group Premier Energy (BVB: PE) announced that its subsidiary, Alive Renewable Holding Limited, has completed the acquisition of a 90% stake in Development Power Solar Energy, a company that ...

# New energy storage project in Bucharest

Additionally, the developer of a project of a similar size in Alba county in Transylvania, including energy storage, applied for an environmental permit. Eximprod Group ...
