

New solar photovoltaic panels in Yerevan

Who makes solar panels in Armenia?

Solaron is the first manufacturer of solar panels in Armenia, which annual production capacity reaches about 60 megawatts. Brand "Solaron" is a registered trademark for products manufactured by Profpanel. In Solaron Company merged a team of highly qualified professionals with many years of experience in the business organization from scratch.

Where is Solaron available in Armenia?

Solaron's services are available throughout all regions of Armenia. Solaron is the first manufacturer of solar panels in Armenia, which annual production capacity reaches about 60 megawatts. Brand "Solaron" is a registered trademark for products manufactured by Profpanel.

Where are Solaron solar panels made?

Solaron produces solar panels at its own modern production facilities located in Yerevan. To ensure the production of high-quality solar panels, the company has invested in a modern and innovative production line from the renowned Italian company Ecoprogetti.

When will Solaron participate in Armenia Expo 2024?

Solaron will participate in ARMENIA EXPO 2024 on September 6-8, which is an exhibition organized by the Union of Industrialists and Businessmen of Armenia and LOGOS EXPO Center. It will take place in 2024, from September 6 to 8 at the sports concert complex named after K. Demirchyan.

Who is Solaron?

Solaron, being the first solar panel manufacturer in Armenia, paid special attention to the energy efficiency of buildings under construction and built. Since 2016, the company has been developing innovative solar energy solutions that improve the quality of life and contribute to the sustainable development of the country.

How many solar panels does Solaron produce a year?

Our annual production capacity of solar panels is 60 MW. Over the course of 8 years, Solaron has successfully launched and completed more than 2000 projects both in Armenia and abroad. Innovation is at the core of Solaron's approach, and we actively integrate innovative technologies and solutions into projects.

Scaling Solar PV Panel Production for 5.4 MW Capacity and Averting 2,543 Tons of CO2 Emissions Annually. In the sun-kissed city of Yerevan, back in 2019, a visionary enterprise ...

The PV system consists of 686 pcs of 465w solar panels and 4 pcs solar inverters from a well-known Huawei brand. Yearly productivity of the photovoltaic system is 445 000 Kw in Yerevan, Shengavit solar conditions. The business will save more than 22 mln AMD per year.

New solar photovoltaic panels in Yerevan

Solaron produces solar panels at its own modern production facilities located in Yerevan. To ensure the production of high-quality solar panels, the company has invested in a modern and ...

Yerevan Municipality has started the "EU4Yerevan: Solar Community" program which is implemented within the frames of "Covenant of Mayors" initiative. Solar photovoltaic panels are being installed on the roofs of blocks of flats. 100 blocks of flats have been included ...

Profpanel invests about \$13 million in the production of solar batteries in Yerevan: the Cabinet of Armenia exempted the company from import duty as part of the investment project. Funds will be directed to the purchase ...

Yerevan Municipality has started the "EU4Yerevan: Solar Community" program which is implemented within the frames of "Covenant of Mayors" initiative. Solar photovoltaic panels are being installed on the roofs of blocks of flats. 100 blocks of flats have been included in the program instead of 90 previously selected ones. According to the head of Development [...]

Thanks to the EU-funded project EU for Yerevan Solar Community, 90 apartment buildings in Yerevan, Armenia, ... photovoltaic panels Tufenkian Hospitality LLC - Installation of photovoltaic panels ... further develop a new regulatory framework for small-scale PV power generation. As of July 2020, 49 solar PV plants (feed-in tariff

The solar photovoltaic plant is the most common modern solar solution. It is through this that it becomes possible to convert solar energy into direct electric current and get free electricity. Features of the geographical location of the installation of the solar plant, and operational and technical specifications are important in its design ...

Solaron started its solar panel production activities on June 29, 2016, becoming the first Armenian manufacturer of solar panels. Brand The brand ""Solaron"" is a registered trademark for products manufactured by Profpanel.

YEREVAN (ARMENPRESS) -- The first floating solar photovoltaic (FPV) system in the region was inaugurated on September 13 on Lake Yerevan in the Armenian

Solar photovoltaic panels are being installed on the roofs of 100 apartment houses in Yerevan as part of a US\$1.250 million EU grant program. The Yerevan Municipality has kicked in \$250,000 to the program, a part of the ...

Solar Panel Angles for Yerevan, AM. Yerevan is located at a latitude of 40.18°N. Here is the most efficient tilt for photovoltaic panels in Yerevan: Orientation. Your photovoltaic panels need to be angled facing south. Fixed tilt. If you're mounting the photovoltaic panels at a stationary angle, such as on your roof, the most efficient angle is ...

New solar photovoltaic panels in Yerevan

Times.am had an interview with Artak Aghekyan, head of the sales department of Solara, a company that installs solar photovoltaic panels, about the importance of using solar photovoltaic plants, their efficiency, as well as the best conditions for purchasing green systems in Armenia.. Mr. Aghekyan, what is the logic behind the proposals regarding the purchase of ...
