

What are containerized generator / packaged container and enclosure options?

Containerized generator /Packaged container and enclosure options provide alternatives to installations in existing or new buildings. We have significant experience with pre-packaged container and enclosure solutions for engine-generator sets,balance of plant equipment,and switchgear.

Why should you choose genset containers?

With our genset containers offer optimal performance in various site conditions. By maintaining high-quality standards for both the engine and the complete containerized power plant package,we ensure excellent reliability for your power and heat generation needs. Easy to install and disassemble,convenient for maintenance and inspection.

Why do you need two generators on a single platform?

Because you have two generators on a single platform, you have the flexibility you need to meet a 100% load or even a smaller load. It is more efficient, flexible and reliable.
