

Portugal Porto Mobile Power Station Generator

Is this the first megawatt-scale wave energy project in Portugal?

Digital rendering of the Portugal project. Source: Eco Wave Power Swedish-Israeli wave energy developer Eco Wave Power has launched construction of what it says is the first megawatt-scale wave energy project, a 1MW generator in waters off the city of Porto, Portugal.

What will Eco Wave Power do for Portugal?

Once these upgrades are completed, the focus will shift to the production and deployment of Eco Wave Power's innovative wave energy technology. Portugal's ambitious renewable energy goals, which target 85% renewable electricity generation by 2030, provide a strong backdrop for this project.

Why should Portugal invest in wave power?

By harnessing wave power, Portugal is tapping into one of its abundant natural resources--the ocean--while positioning itself at the forefront of global renewable energy innovation. This project is expected to contribute significantly to the country's energy mix, enhancing sustainability and energy independence.

Where is Eco Wave power launching its first megawatt-scale project?

The company has also secured significant deals worldwide, including a major 77-MW wave energy station project in Turkey. The spotlight is now on Porto, Portugal, where Eco Wave Power is preparing to launch its first megawatt-scale project. Although the project was announced in 2020, construction approval was only granted in March of this year.

Will Portugal's 1MW wave energy project be completed by 2026?

This initiative, the company's first 1MW wave energy project in the country, is set to be completed by 2026 and reflects Portugal's commitment to innovative and sustainable energy solutions.

What's happening in Porto?

The Porto site will feature a 1-megawatt wave energy station and a wave energy museum and education center. Israeli company Eco Wave Power is preparing to launch its first megawatt-scale installation. This will mark a major advancement in wave energy technology.
