Consider things like protection from grid outages and money saved on monthly electric bills against the cons of the limitations of sunlight and initial costs.

In Prague, only a small fraction of trams are air-conditioned. The ones with AC are the 15T ForCity trams, which have a distinctive yellow line under the window in the front, unless the tram has been painted with a special design for advertising. Some buses also have air conditioning, but it is harder to tell which ones.
