

San Diego container emergency power generation equipment

How much did the port OS San Diego spend on a crane?

The Port of San Diego spent nearly \$14 million on a pair of all-electric Gottwald Generation 6 mobile harbor cranes from Konecranes.

How many Konecranes does San Diego have?

The Port of San Diego has received a pair of 400 tonne (440 ton) electric Konecranes. The port now boasts the highest lifting capacity of any crane system on the West Coast with a dramatic upgrade from the 100 tonne lifting capacity of the diesel cranes they replace!

Why should we replace our diesel-powered cargo handling equipment with electric cranes?

"By replacing our diesel-powered cargo handling equipment with electric equipment, such as these cranes, we continue to ensure that the air in and around the terminal is cleaner to breathe, reduce our environmental impacts and fulfil our responsibility to support commerce and jobs. in our region."
