

Saudi Arabia Energy Storage Vehicle Manufacturing Price

Will Saudi Arabia be able to deploy battery energy storage systems by 2030?

According to Saudi Energy Minister Prince Abdulaziz bin Salman, the nation has set a goal of deploying 48GWh of battery energy storage systems by 2030. This ambitious target not only supports Saudi Arabia's energy transition but also injects fresh momentum into the global renewable energy and energy storage markets.

How much does an EV cost in Saudi Arabia?

As we currently stand in 2024, only a small minority (7%) of all vehicle models in KSA are EVs, with over 60% of these priced above US\$65,000, highlighting the affordability challenge for Saudi consumers. In contrast, nearly 73% of internal combustion engine (ICE) vehicles are available for US\$65,000 or less.

Is Saudi Arabia preparing for a 2gw/8gwh battery storage tender?

Saudi Arabia's government entity tasked with procuring electricity generation projects has commenced the qualification process for a 2GW/8GWh battery storage tender. Saudi Power Procurement Company (SPPC), licensed as the sole buyer of electrical energy and capacity from sources within the Kingdom, made the announcement on Monday (4 November).

Are EVs a good investment in Saudi Arabia?

Currently, EVs account for just over 1% of overall car sales in Saudi Arabia. As the country begins to reduce its reliance on internal combustion engine (ICE) vehicles, the adoption of electric vehicles is seen as a critical step in lowering overall transport sector emissions.

Will Saudi Arabia invest in electric cars?

The Saudi Arabian Ministry of Investment also signed a US\$5.6 billion investment agreement with Chinese automotive and mobility company, Human Horizons, in a move that will see the two collaborate on the development, manufacture and sale of electric vehicles.

How does Saudi Arabia eMobility work?

Saudi Arabia's approach to eMobility focuses on investing in domestic EV manufacturing, expanding public charging infrastructure, and developing a robust aftermarket support system. By leveraging local resources for innovative battery production and fostering public-private partnerships, the Kingdom aims to create a sustainable EV ecosystem.

Al Dossary ENCORE Fiberglass is the anti corrosive fiberglass design, engineering and manufacturing division of Abdullah Al. Dossary Group, providing a range of engineering solutions to the Oil & Gas, Chemical, Petrochemical, Energy and Infrastructural sectors. King Saud Street, Dammam, Kingdom of Saudi Arabia.
