Provides Battery Backup and Surge Protection for home office and theater equipment. Uninterruptible power supply (UPS) 10 Outlets (5 surge, 5 surge + battery backup) Capacity: 1500VA / 900W; USB Charging: 1 x Type-A, 1 x Type-C 30W PD; Cord Length: 6ft (1.8m) Surge Suppression: 890 Joules ; LCD displays real-time information on battery status

A UPS (Uninterrupted Power Supply) is a backup battery that keeps the equipment plugged into it running in the event of a power outage. It's not just a glorified power bank, because the UPS detects interruptions in the power and automatically switches the connected devices to running off the UPS battery, so they don't shut down. This makes ...

Unlike a backup generator, it does not need to power up in order to start generating power. In other words, if you experience a power outage in your area, your machinery should not shut down if it is plugged into a UPS battery backup. Many models of uninterruptible power supply USP also provide surge protection.

UPS Power System Manufacturer China|INVT Power Products INVT Power is a leading UPS(uninterruptible power supply) OEM/ODM manufacturer from China, if you need modular UPS, tower UPS, rack UPS, integrated data center solutions, precision air conditioners, we provide factory price and premium services for you.

An uninterruptible power supply (UPS) helps prevent sudden shutdowns, data loss, and hardware damage by providing backup power when your main electricity fails. For home users, a UPS can protect desktop PCs,

gaming consoles, and smart home devices from unexpected power cuts.

What is a UPS (Uninterruptible Power Supply)? An Uninterruptible Power Supply (UPS) is a device that provides emergency power to connected equipment when the main power source fails. It offers immediate protection from power interruptions by supplying power from a separate source, typically batteries. Key Functions of a UPS. Power Backup ...
