

Tcl new energy solar air conditioner

Who is TCL photovoltaic technology?

TCL Photovoltaic Technology is a green energy full-lifecycle smart service provider that offers one-stop solutions integrating development, manufacturing, and energy management. Become an innovator and leader of zero-carbon life and smart life. Become an innovative and leading integrated service provider of green energy solutions.

Does TCL offer Inverter air conditioning?

Discover the ultimate in-home comfort with TCL's inverter air conditioning. A standout feature of our inverter air conditioners is the Windless Cooling with Gentle Breeze mode, which uses up to 1,422 micro-holes to create a smooth laminar airflow, ensuring you enjoy a refreshing atmosphere without the discomfort of cold and direct air currents.

How much energy does a TCl inverter AC use?

On average, a 1.5-ton inverter AC consumes about 1.0 to 1.5 kWh per hour, which can be up to 60% energy savings for TCL inverter air conditioning due to the variable speed compressor that fastly and smartly adjusts the temperature and power usage based on your demand.

Why should you choose TCL air conditioner?

TCL Air Conditioners are beneficial due to their use of R32 Eco-Friendly Refrigerant, which can convey heat efficiently and has much lower Global Warming Potential. They also provide a Digital Temperature Display for clear and intelligible temperature readings.

What is TCL AC technology?

Better still, TCL AC technology is intuitive and designed to make your life easier. Voice control via easy connectivity to all virtual assistant devices, means you have the power to control the temperature levels and be handsfree - perfect for when you're occupied with household chores, or gaming or simply can't locate the remote.

Where are TCL air conditioners made?

TCL has been building high-quality air-conditioning products for more than 20 years with established global network of 10 manufacturing bases spanning across China, Brazil and Indonesia.

TCL TPro 12000 BTU split air conditioner at ACTEC Solar. energy-efficient air conditioning for rooms up to 26m²;. functions: cooling, heating, ventilation, dehumidification. with R32 ...

Experience superior cooling with the TCL 12,000 BTU Air Conditioner in Mauritius. Designed for efficiency and innovation, this AC unit brings comfort to your space. ... TCL's air conditioning units prioritize energy efficiency and ...
