The XDJ has 3 stereo outputs: 1) 1/4" 2) XLR 3) RCA If I was using traditional PA speakers you'd use for a live gig this would be easy. But the speakers I'd like to use are the Dynaudio Emit 50 (large floor stand speakers; passive) with Arcam power amps (only has RCA inputs). The subwoofers I'm looking at (SVS PB-3000; powered) only use RCA inputs.

The new flagship of the XDJ all in one line has finally arrived in the new XDJ-XZ, which sits alongside the XDJ-R2 and RR, respectively. This new behemoth features full-size jog wheels and more or less feels like a classic CDJ Nexus 2 and 900 setup with only a few tweaks like performance pads and one consolidated screen.
