Who makes Canadian solar panels?

The Canadian brand was founded by Chinese scientist Dr. Shawn Qu. The panels that the company offers for sale aren't too expensive, but they are quite powerful and perform well in low-light conditions, such as cloudy days, winter and fall. This Chinese company competes in the Top-5 world's largest solar brands.

Are Asian solar panels a good choice?

Asian PV modules are known for high efficiency and often provide very high output, which makes them probably the most popular choice when it comes to wholesale solar panels for sale for systems of a larger scope. However, their warranties for products are lower and quality issues are more frequent in comparison to US and European companies.
